Assembly Instructions

SHUT OFF MAIN ELECTRICAL SUPPLY FROM
THE MAIN FUSE BOX/CIRCUIT BREAKER.

1. Remove all parts carefully from the box.
2. Remove cross bar (A) and threaded tube (C) from hang straight (J).
3. Affix cross bar (A) to "J BOX" with screws (B) provided.
4. Measure desired drop for fixture to hang. Add/remove extension tubes (D) accordingly. To add/remove extensions (D), thread wiring from housing (E) through extensions (D) being observant not to cut wiring. Thread bottom extension tube (D) onto threaded section of housing (E).
5. If removed, thread hang straight (J) onto top threading nipple of extension (D). Remove collar on hang straight by threading collar down hang straight (J) and sliding down extensions (D). Allow collar to rest on housing (E).
6. Guide wiring from extensions (D) through hang straight (J). Guide wiring through center hole in canopy (I). Slide canopy (I) down extensions (D) and rest on housing (E).
7. Holding fixture at hang straight (J), lift fixture to cross bar (A) guiding wiring through threaded tube (C). Thread hang straight (J) onto threaded tube (C).
8. Connect the grounding wire (green and yellow striped) from the fixture to the grounding wire in the outlet box. Connect the black wire of the fixture (or smooth side of the wire) to the black wire in outlet box. Connect the white wire of the fixture (or rough side of the wire) to the white wire in outlet box.

9. Slide canopy (I) up extensions (D) and hold tightly against ceiling. Slide collar up extension (D) and thread onto hang straight (J). Thread collar up hang straight (J) until collar rest firmly against canopy (I).
10. Thread finial (G) onto bottom threaded nipple of housing (E).
11. Insert five 60 watt Type B bulbs into the sockets.
12. Open shade clips (H) located inside shade (F) and gently affix onto light blubs to secure shade (F) to fixture.
